PROFESSIONAL SUMMARY

Backend engineer with 9+ years of experience delivering and supporting secure, scalable services in government, education, healthcare, and enterprise domains. Brings hands-on experience with Java, Spring Boot, PostgreSQL, Redis, Kubernetes deployment, operational support, performance optimization, and reliable data-intensive workflows.

CAREER HIGHLIGHTS

- Supported Kubernetes deployment of a nearly 25-service election-management platform to a self-managed data center.
- Helped deliver an internal platform reported to support 50,000 users alongside a public-facing application.
- Reduced response time by 30% through Redis caching and backend performance improvements.
- Supported high-volume registration and payment workflows for nearly 30,000 students.

TECHNICAL SKILLS

- Platform & Operations: Kubernetes Deployment Support, Dockerfiles, Deployment Troubleshooting, Operational Support
- Backend: Java, Spring Boot, Hibernate, REST APIs, Microservices
- Data & Reliability: PostgreSQL, SQL Server, Redis, Data Integrity, Database Modeling, Query Optimization
- Security & Delivery: Keycloak, Authentication, Authorization, Agile Development, Code Review, Stakeholder Collaboration

PROFESSIONAL EXPERIENCE

Penta Global Ltd. - Senior Software Engineer

Dhaka, Bangladesh | August 2023 - Present

- Supported Kubernetes deployments to the organization's self-managed data center for an Election Management System built as nearly 25 microservices.
- Design and implement secure, scalable Java, Spring Boot, Hibernate, and REST API services for internal and public-facing applications.
- Contribute to delivery of an internal system reported to support 50,000 users and digitize election-result workflows previously dependent on paperwork and physical result delivery.
- Lead backend engineering activities, including task allocation, grooming, planning, implementation guidance, and code reviews within a 30-person development team.
- Contributed to approximately 30 deployments by writing Dockerfiles and diagnosing deployment failures in the organization's self-managed Kubernetes data center.

Dynamic Solution Innovators Ltd. - Software Engineer

Dhaka, Bangladesh | January 2022 - July 2023

- Reduced system response time by 30% through Redis caching and backend performance improvements.
- Led development of an exam management system using Java, Spring Boot, PostgreSQL, Flutter, and Crystal Reports; designed its database schema after requirements analysis.
- Supported a production system used by 2,500+ administrators, 1,000 invigilators, and 1,000 examinees, including registration and payment workflows for nearly 30,000 students.

Dohatec New Media - Java Software Engineer

Dhaka, Bangladesh | October 2016 - December 2021

- Contributed to the National Electronic Government Procurement System, including large-file upload capabilities, relational data modeling, and enterprise workflow features.
- Implemented features and resolved defects while preserving data privacy and integrity in government-procurement workflows.

Jaliks Soft IT Limited - .NET Developer

Khulna, Bangladesh | February 2016 - June 2016

- Implemented and maintained a large-scale education application using ASP.NET, C#, and SQL Server, including stored procedures, triggers, and views.

PERSONAL PROJECTS

Open-Care | Java, Spring Boot, PostgreSQL, Next.js

- Lead contributor to an open-source healthcare-information platform; built a documented Spring Boot REST API with Redis, Keycloak authorization, MinIO, Liquibase, and Docker.

FactLens | Next.js, Strapi, PostgreSQL, Cloudflare

- Built and deployed the full-stack editorial platform, including the frontend, Strapi backend and content APIs, PostgreSQL database, and Cloudflare file storage.

EDUCATION

Khulna University | Bachelor of Science (B.Sc.) in Computer Science and Engineering | 2011–2016
