PROFESSIONAL SUMMARY

Senior Backend Engineer with 9+ years of experience combining hands-on Java and Spring Boot delivery with backend technical leadership, planning, mentoring, code review, and stakeholder collaboration across government, education, healthcare, and enterprise domains.

CAREER HIGHLIGHTS

- Served as backend team lead, contributing to grooming, planning, implementation guidance, and code reviews within a 30-person development team.
- Helped deliver an internal election-management platform reported to support 50,000 users and approximately 100,000 daily requests during election periods.
- Reduced exam-management system response time by 30% through Redis caching and backend performance improvements.

TECHNICAL SKILLS

- Leadership & Delivery: Technical mentoring, grooming, planning, code review, stakeholder collaboration, Agile development
- Backend & Architecture: Java, Spring Boot, Hibernate, REST APIs, RabbitMQ, Microservices, Backend Architecture
- Data & Performance: PostgreSQL, SQL Server, Redis, Database Modeling, Query Optimization
- Security & Platform: Keycloak, Authentication, Authorization, Kubernetes, Nginx, CI/CD, GitHub Actions, Jenkins, Locust, Data Integrity

PROFESSIONAL EXPERIENCE

Penta Global Ltd. - Senior Software Engineer

Dhaka, Bangladesh | August 2023 - Present

- Lead backend engineering activities for an Election Management System, including task allocation, grooming, planning, implementation guidance, and code reviews within a 30-person development team.
- Design service interactions and REST API contracts across a microservices architecture of nearly 25 services, delivering secure, scalable Java and Spring Boot services.
- Contribute to delivery of an internal system reported to support 50,000 users alongside a public-facing application that does not require authentication.
- Support Kubernetes deployments to the organization's self-managed data center and digitize election-result workflows previously dependent on paperwork and physical result delivery.
- Contributed to approximately 30 deployments by writing Dockerfiles and diagnosing deployment failures in the organization's self-managed Kubernetes data center.
- Implemented application-level routing of center and polling-personnel search reads to PostgreSQL read replicas, improving search responsiveness and reducing load on the primary transactional database.
- Supported 15 production deployments during the three months preceding elections and configured SonarQube quality gates and Trivy dependency-vulnerability scanning in CI/CD.

Dynamic Solution Innovators Ltd. - Software Engineer

Dhaka, Bangladesh | January 2022 - July 2023

- Led development of an exam management system using Java, Spring Boot, PostgreSQL, Flutter, and Crystal Reports; analyzed requirements and designed its database schema.
- Reduced system response time by 30% through Redis caching and backend performance improvements.
- Used Jenkins for CI/CD and Locust for load testing.
- Built a real-time administrator dashboard associated with a reported 40% increase in system usage.
- Deployed a production system used by 2,500+ administrators, 1,000 invigilators, and 1,000 examinees; supported registration and payment management for nearly 30,000 students.

Dohatec New Media - Java Software Engineer

Dhaka, Bangladesh | October 2016 - December 2021

- Implemented features and resolved defects for the National Electronic Government Procurement System while preserving data privacy and integrity.
- Contributed to large-file upload capabilities, relational data modeling, enterprise workflow features, and stakeholder-aligned delivery.

Jaliks Soft IT Limited - .NET Developer

Khulna, Bangladesh | February 2016 - June 2016

- Implemented and maintained a large-scale education application using ASP.NET, C#, and SQL Server, including stored procedures, triggers, and views.

PERSONAL PROJECTS

Open-Care | Java, Spring Boot, PostgreSQL, Next.js

- Lead contributor to an open-source healthcare-information platform; built a documented Spring Boot REST API with Redis, Keycloak authorization, MinIO, Liquibase, and Docker.

FactLens | Next.js, Strapi, PostgreSQL, Cloudflare

- Built and deployed the full-stack editorial platform, including the frontend, Strapi backend and content APIs, PostgreSQL database, and Cloudflare file storage.

EDUCATION

Khulna University | Bachelor of Science (B.Sc.) in Computer Science and Engineering | 2011–2016
