PROFESSIONAL SUMMARY

Senior Software Engineer with 9+ years of experience building secure, scalable backend systems for government, education, healthcare, and enterprise domains. Hands-on with Java, Spring Boot, PostgreSQL, REST APIs, Redis, microservices, and Kubernetes-based deployment; experienced in backend leadership, data modeling, performance improvement, and production delivery.

TECHNICAL SKILLS

- Backend: Java, Spring Boot, Hibernate, REST APIs, microservices, backend architecture
- Data and performance: PostgreSQL, SQL Server, database modeling, Redis caching, query optimization
- Platform and security: Kubernetes, Keycloak, authentication, authorization, data integrity
- Delivery: Requirements analysis, Agile development, deployment, code review, mentoring, stakeholder collaboration

PROFESSIONAL EXPERIENCE

Penta Global Ltd. - Senior Software Engineer

Dhaka, Bangladesh | August 2023 - Present

- Serve as backend team lead for an Election Management System, guiding grooming, planning, implementation, and code reviews within a 30-person development team.
- Design and implement secure, scalable Java, Spring Boot, Hibernate, and REST API services across a microservices architecture of nearly 20 running services.
- Help deliver an internal system supporting 50,000 users, alongside a public-facing application that does not require authentication.
- Support deployments to the organization's self-managed data center using Kubernetes and digitized election-result workflows previously dependent on paperwork and physical result delivery.

Dynamic Solution Innovators Ltd. - Software Engineer

Dhaka, Bangladesh | January 2022 - July 2023

- Led development of an exam management system using Java, Spring Boot, PostgreSQL, Flutter, and Crystal Reports; analyzed requirements and designed its database schema.
- Reduced system response time by 30% through Redis caching and backend performance improvements.
- Built a real-time administrator dashboard that contributed to a 40% increase in system usage and user satisfaction.
- Deployed a production system used by 2,500+ administrators, 1,000 exam invigilators, and 1,000 examinees; supported registration and payment management for nearly 30,000 students.

Dohatec New Media - Java Software Engineer

Dhaka, Bangladesh | October 2016 - December 2021

- Implemented features and resolved defects for the National Electronic Government Procurement System while preserving data privacy and integrity.
- Contributed to large-file upload capabilities, relational data modeling, and enterprise workflow features; helped drive an 80% increase in user engagement over six months.

Jaliks Soft IT Limited - .NET Developer

Khulna, Bangladesh | February 2016 - June 2016

- Implemented features and resolved defects for a large-scale education application using ASP.NET, C#, and SQL Server.

EDUCATION

Bachelor of Science in Computer Science and Engineering, Khulna University | 2011 - 2016
