PROFESSIONAL SUMMARY

Technical leader and Senior Software Engineer with 9+ years of experience delivering backend systems across government, education, healthcare, and enterprise domains. Combines hands-on Java and Spring Boot credibility with planning, grooming, mentoring, code review, stakeholder collaboration, and practical delivery ownership for secure, scalable services.

CAREER HIGHLIGHTS

- Served as backend team lead within a 30-person development team, guiding grooming, planning, implementation, and code reviews.
- Helped deliver a nearly 25-service election-management platform supporting 50,000 internal users and approximately 100,000 daily requests during election periods.
- Led development of an exam-management system used by 2,500+ administrators, 1,000 invigilators, and 1,000 examinees.
- Built a real-time administrator dashboard that contributed to a 40% increase in system usage and user satisfaction.
- Supported online registration and payment management for nearly 30,000 students.

TECHNICAL SKILLS

- Leadership & Execution: Team Mentoring, Grooming, Planning, Code Review, Stakeholder Collaboration, Cross-Functional Delivery
- Engineering: Java, Spring Boot, Hibernate, REST APIs, Microservices, Backend Architecture
- Data & Reliability: PostgreSQL, SQL Server, Redis, Database Modeling, Performance Optimization, Data Integrity
- Delivery & Platform: Agile Development, Requirements Analysis, Deployment, Kubernetes, Authentication, Authorization

PROFESSIONAL EXPERIENCE

Penta Global Ltd. - Senior Software Engineer

Dhaka, Bangladesh | August 2023 - Present

- Led backend engineering activities for an Election Management System, including task allocation, grooming, planning, implementation guidance, and code reviews within a 30-person development team.
- Designed service interactions and REST API contracts across a microservices architecture of nearly 25 services, delivering secure, scalable Java and Spring Boot services.
- Help deliver an internal system supporting 50,000 users alongside a public-facing application that does not require authentication.
- Support Kubernetes deployments to the organization's self-managed data center and digitized election-result workflows previously dependent on paperwork and physical result delivery.

Dynamic Solution Innovators Ltd. - Software Engineer

Dhaka, Bangladesh | January 2022 - July 2023

- Led development of an exam management system using Java, Spring Boot, PostgreSQL, Flutter, and Crystal Reports; analyzed requirements and designed its database schema.
- Built a real-time administrator dashboard that contributed to a 40% increase in system usage and user satisfaction.
- Reduced system response time by 30% through Redis caching and backend performance improvements.
- Supported production workflows used by 2,500+ administrators, 1,000 invigilators, and 1,000 examinees, including payments for nearly 30,000 students.

Dohatec New Media - Java Software Engineer

Dhaka, Bangladesh | October 2016 - December 2021

- Implemented features and resolved defects for the National Electronic Government Procurement System while preserving data privacy and integrity.
- Collaborated with stakeholders, customers, and product teams through iterative, agile engineering practices.

Jaliks Soft IT Limited - .NET Developer

Khulna, Bangladesh | February 2016 - June 2016

- Implemented features and resolved defects for a large-scale education application using ASP.NET, C#, and SQL Server.

EDUCATION

Khulna University | Bachelor of Science (B.Sc.) in Computer Science and Engineering | 2011–2016
